Science and Engineering for Enhancing Quality of Life and Ensuring a Better Future

The 1st Conference on Science and Engineering for Instrumentation, Environment and Renewable Energy 2015 themed "Science and Engineering for Enhancing Quality of Life and Ensuring a Better Future" will be held in Pekanbaru, Indonesia at the University of Riau, September 28-29, 2015. It is jointly organized by the University of Riau (UR) Indonesia, cellasys GmbH R&D and the Technische Universitaet Muenchen (TUM) Germany.

Prominent researchers and scientists from around the globe will assemble to share their latest research findings and exchange ideas regarding innovations in measurement systems, medical applications, improvements to instrumentation for environmental analysis as well as selected topics in renewable energy. In addition, direct contacts made among researchers and scientists will foster new international relationships and spark future collaborative research projects.

Authors are invited to submit a full manuscript (4-5 pages including references) for oral or poster presentation. The seminar will include plenary speeches, invited presentations, and contributed presentations (oral and poster). All accepted papers from the ICoSE 2015 will be published in APPLIED MECHANICS AND MATERIALS, which is indexed in EI Compendex, ISI (ISTP, CPCI), and Elsevier SCOPUS databases

Scope of Topics

Measurement Systems and Sensor Technology
Medical Instrumentation
Electronic Materials and Devices
Environmental Instrumentation
Renewable Energy
Computer Simulation and Modeling

Invited Speakers

Prof. Dr. M. Nuh (Biomedical Lab, ITS Surabaya)*
Prof. Dr. Alain Foucaran (Universite Montpellier II, France)*
Prof. Dr. Mohamad Deraman (UKM Malaysia)
